

A PRIMARY CARE GUIDE TO KEY CLINICAL QUESTIONS IN OSTEOPOROSIS MANAGEMENT

YOU ARE INVITED TO JOIN US FOR A CONTEMPORARY AND CLINICALLY RELEVANT EDUCATIONAL ACTIVITY.

This interactive program has been specifically designed to address the most frequently encountered clinical challenges in the management of patients with osteoporosis or at risk for osteoporotic fracture in the primary care setting. This activity was developed by leading Canadian Experts to provide clinicians with answers to frequently asked questions and key take-away messages that can be applied to real-world practice.

Date: January 01, 0001 Location: location name 117 silver linden dr
