AGENDA TOPICS

- Current Osteoporosis Burden
- Osteoporosis Management:
 - Historical Lack of Improvement Over Time
- 2020 Canadian Chronic Disease Surveillance System Report
- Secondary Fracture Prevention Care Gap
- Estimated Mortality Rate after a Fracture Related to Osteoporosis in Canada
- Current Healthcare Costs Associated with Fractures Related to Osteoporosis in Canada
- Barriers to Osteoporosis Management in Primary Care Practice
- Possible Solutions to Closing the Osteoporosis Care Gap

LEARNING OBJECTIVES

Upon completion of this module, participants will be better able to:

Define the factors contributing to the osteoporosis care-gap in Canada

Explain the impact of the care-gap on the disease state including subsequent fractures and mortality

Identify common barriers to optimal osteoporosis management in the primary care practice setting

Apply solutions to help address the osteoporosis care-gap

This one credit per hour Group Learning program has been certified by the College of Family Physicians of Canada and the Chapter for up to Mainpro+ credits.
