Guide to Enabling Cookies in Your Browser
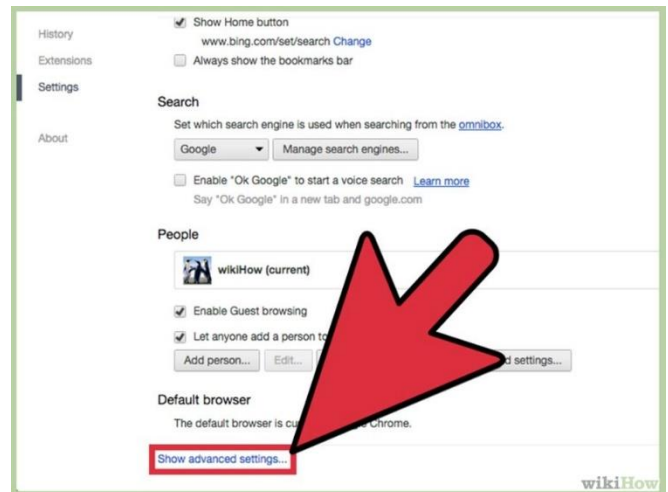

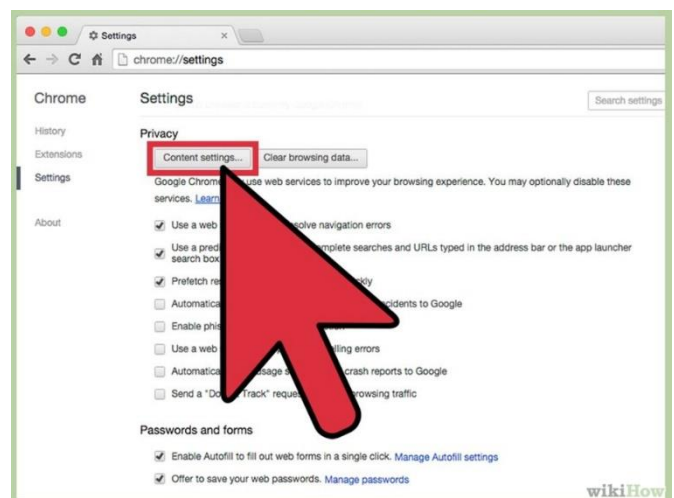

STEP 1: Click the Chrome Menu button (☰) and select Settings
STEP 2: Click the "Show advanced settings" link at the bottom of the page
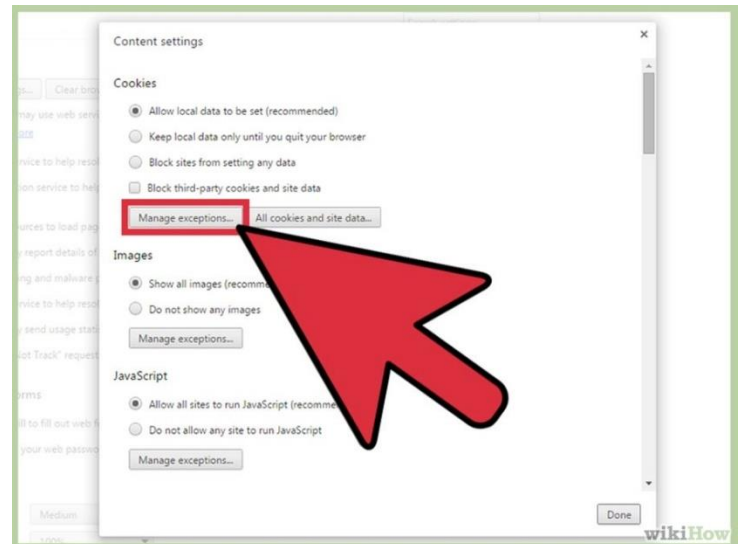

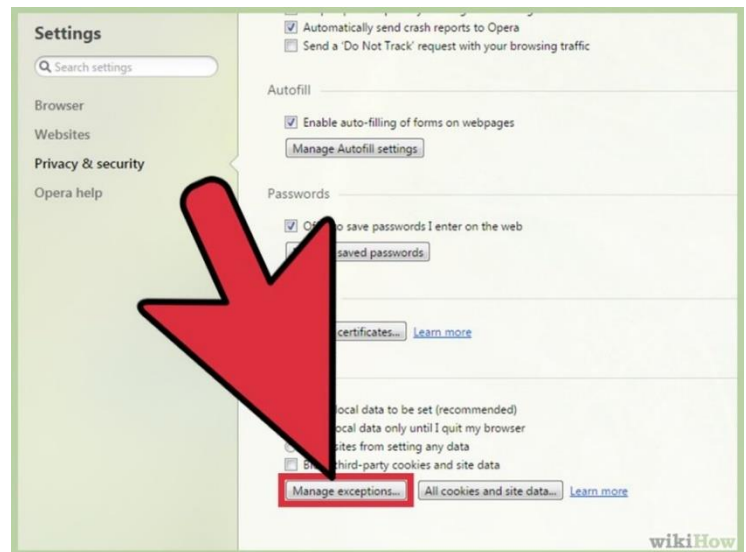

STEP 3: Click the Content settings... button

STEP 4: Allow all cookies by selecting "Allow local data to be set"

STEP 5: Allow only cookies for specific sites by selecting "Block sites from setting any data".
Then click Manage exceptions... and enter in the sites you want to accept cookies from – enter www.dmaction.ca
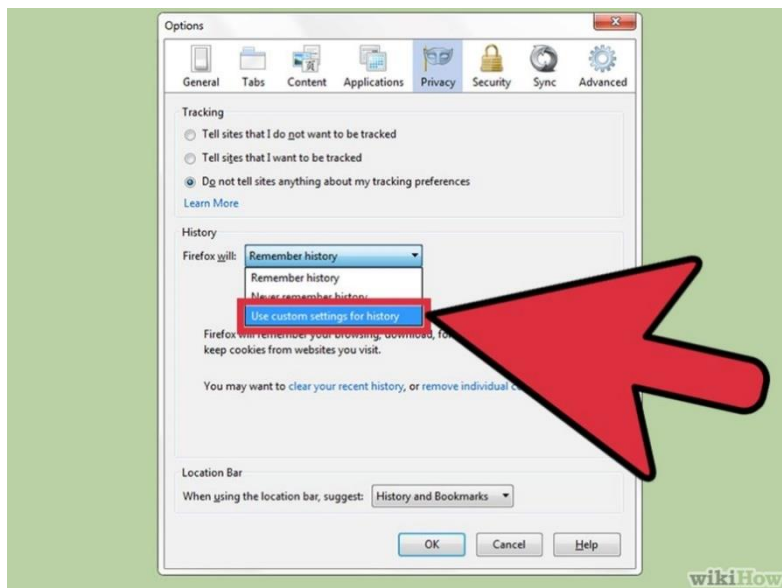

STEP 1: Click the Firefox Menu button (☰) and select Settings

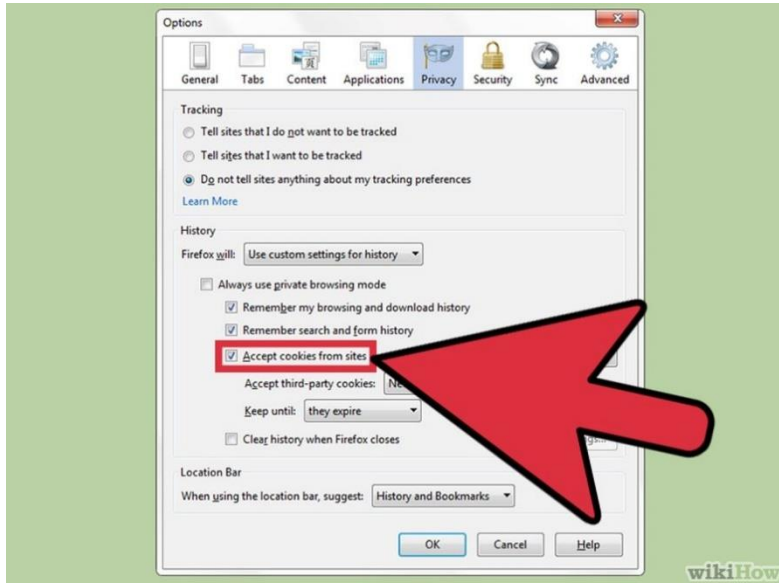

STEP 2: Click the Privacy tab and then click the drop-down menu in the History section

**STEP 3:** Select "Use custom settings for history"

**STEP 4:** Check the "Accept cookies from sites" box to allow all cookies

STEP 1: Click the Gear button or the Tools menu and select "Internet options". If you don't see the Tools menu, press Alt.

STEP 2: Click the `Privacy` tab

STEP 3: Set the slider to "Medium". This security level should be enough to allow virtually all legitimate cookies. It will automatically block third-party cookies that don't have a compact privacy policy.

- If you want Internet Explorer to accept all cookies no matter what, move the slider to the bottom so that it reads "Accept All Cookies"
- Clicking the `Default` button will set the slider to "Medium"
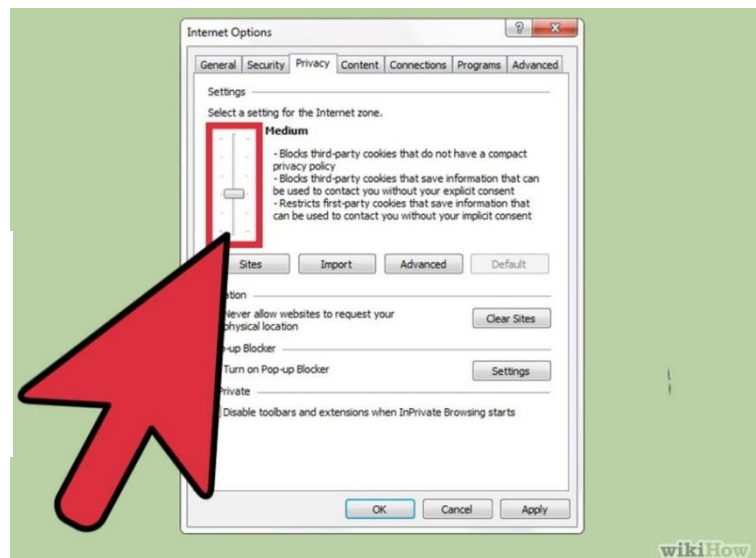

STEP 4: Add sites to the exception list. If you have set the slider to "Medium" and still can't receive a cookie from a specific site, you can add it to the exceptions list. Click the Sites button, enter in the site address – www.vistadm.ca - and then click Allow
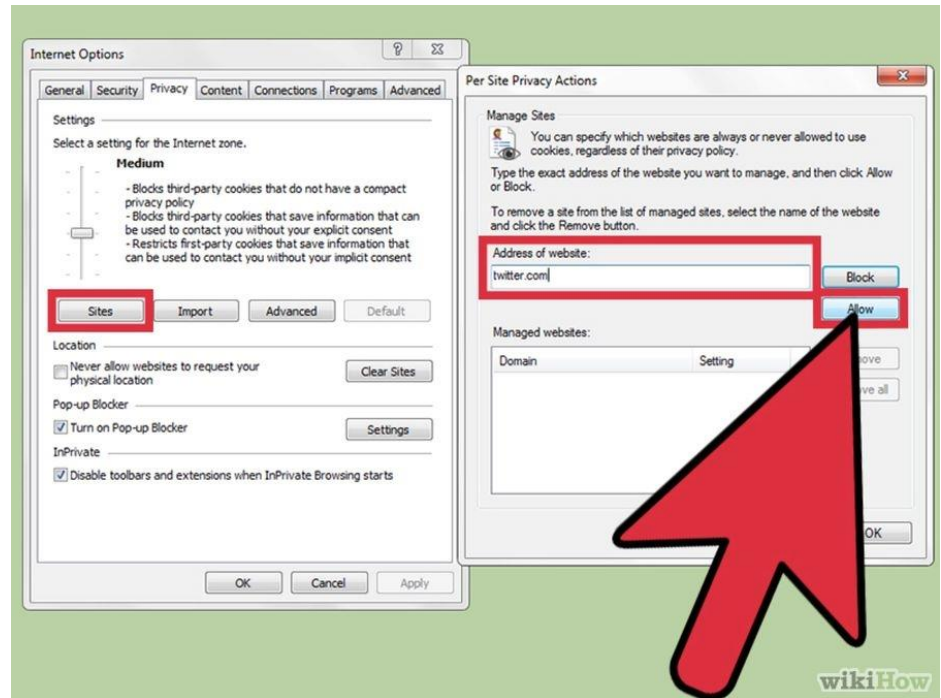

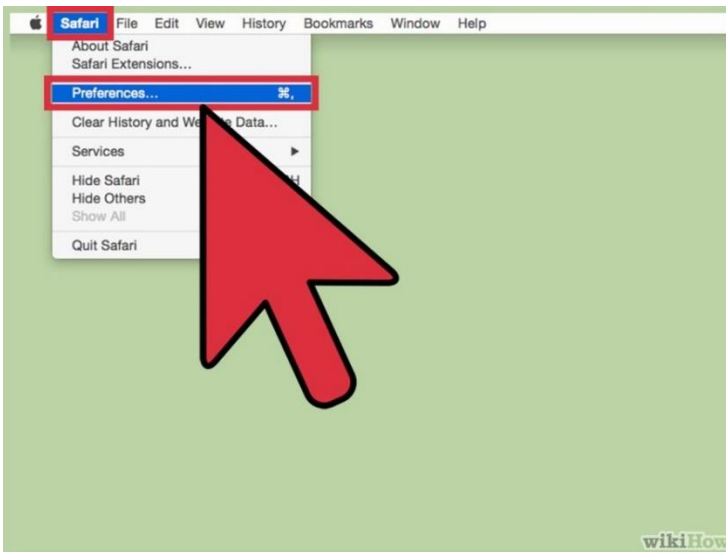

**STEP 5:** Save your settings. Click Apply when you are happy with the settings
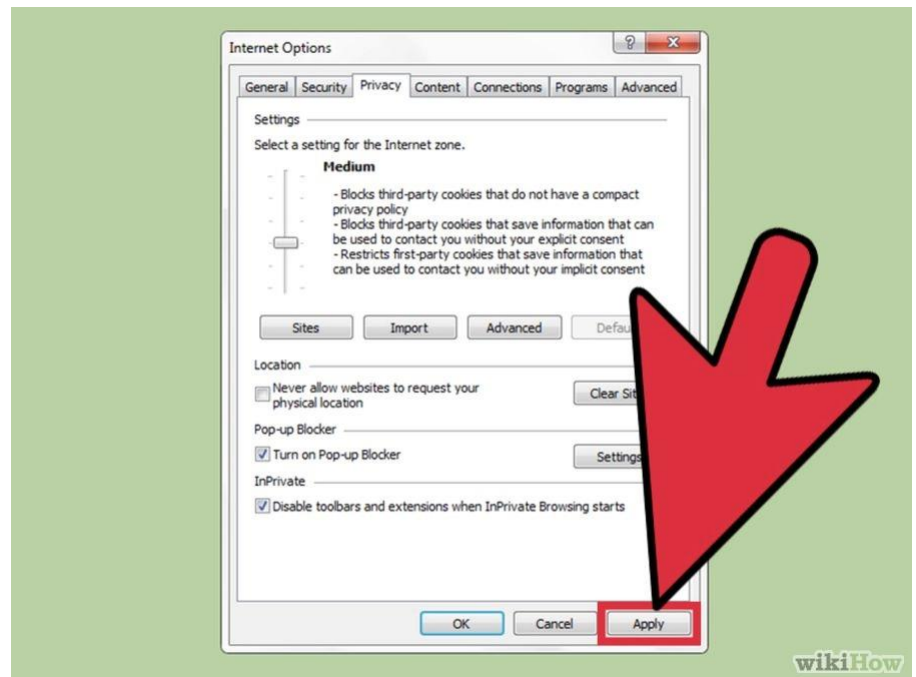

SAFARI BROWSER

STEP 1: Click the Safari menu and select Preferences

STEP 2: Click the "Privacy" tab

STEP 3: Select your cookie preferences. You have four choices when it comes to how your cookies are stored:

- Always block - This will prevent any website from storing cookies on your computer.
- Allow from current website only - This will only allow cookies from the website you are currently visiting. This will block any third-party cookies.
- Allow from websites I visit - This will store cookies for all websites you visit. This is the standard setting to allow the most compatibility with websites. This will block third-party cookies.
- Always allow - This allows all cookies and third-party cookies to be stored. This is the most open but least secure option.
